

**This Sunday 07<sup>th</sup> March, the Telegraph will include a publication focusing solely on *Bones & Joints***

The publication, produced by specialist publishers Mediaplanet in collaboration with *Joint Action*, *ARC*, *ARMA*, *BIMM* and *Arthritis Care* is one in a series examining the various musculoskeletal conditions that exist and how the multitude of players within the Orthopaedic community have pulled together to find innovative methods of treatment and care for our patients. The supplement discusses the importance of Trauma and Orthopaedic research being the lifeblood of medical advance and you will notice how all the stakeholders within the orthopaedic value chain have come together to make a completely holistic approach, all dedicated to improving the patients outcome, helping to Keep People Mobile.

The publication can be viewed online at [www.jointaction.org.uk](http://www.jointaction.org.uk) after the actual publication date due to copyright reasons and online copies can be provided upon request.

For further information or to be involved in future editions contact Clarisse O'Dell at [clarisseodell@mediaplanet.com](mailto:clarisseodell@mediaplanet.com) or on 0207 6654441 or alternatively Peter Foy at the BOA secretariat
